

(a) geographic map — where each speed-change point is

(c) what happens at each point

point		what changes
●	Port A	departure
①	cell crossing	weather, space
②	cell crossing	weather, space
③	6 h block	weather, $t = 6$ h
④	cell crossing	weather, space
⑤	heading change	course ψ
⑥	6 h block	weather, $t = 12$ h
⑦	cell crossing	weather, space
⑧	cell crossing	weather, space
★	Port B	arrival (ETA)

(b) time--distance state space — same points; kink = speed change
